The application has been amended as follows:

1) In the specification, page 1, line 5 is deleted and following is inserted therefor:

- - filed 02/10/2000, and claims benefit of 60/121,539, filed 02/25/1999 - -

2. The following is an examiner's statement of reasons for allowance: The closest prior art is EP 0 108 638. The reference in the example 3, teach a process of preparing iodixanol, which is similar to those claimed herein. However, the reference fails to teach that after dimerization, unreacted compound A is precipitated from the reaction mixture and recycled to enhance the yield. There is no motivation to improve the process as claimed herein, using the prior art of record. Other pertinent references are WO 98/23296 and US 5,49,085. These references again are teaching process of preparing iodixanol, which are similar to those claimed herein, but again fail to teach precipitation of unused compound A and then recycling the same compound to improve the yield of the end product. See WO'296, example 1, on page 9, and US'085, various examples in columns 6-8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
